

# Welcome

*"Our true nature is forever trying to tell us how we can be; all we have to do is listen." —Santoshan*

Whether you are just beginning your journey of spiritual unfoldment or have been studying for a period of time, we congratulate you on your wise decision and welcome you to our school.

Our virtual study program provides a learning opportunity for persons both near and abroad, and affords those who have busy lifestyles a flexible schedule to work with. Added benefits of virtual study include the opportunity to work with instructors live in the virtual classroom, and to connect with like-minded people and build long-lasting friendships.

## THE SCHOOL FOR PSYCHIC STUDIES

- Convenient online study
- Live virtual classrooms
- Live workshops and classes
- Seasonal events and retreats

MEDIUMSHIP CERTIFICATE PROGRAM

# Get Connected.

**Build a direct line to spirit.** Great mediums are not made in a weekend, or a week. The world's greatest mediums have been developing their skills and technique for years in order to enjoy the level of accuracy that they have achieved. Our six-month certificate program is designed to help you create a strong and direct line of communication with the spirit realm. Through the structure and content of the course, you will attain stronger connections and higher levels of understanding and accuracy.

## Mediumship Certificate Program (MCP)

Study anywhere, any time.

The six-month program takes place both on a blog site and in our LIVE online classroom. The MCP program requires a six-month commitment. During this period we will undertake an in-depth study of the theory, practice, and development of spirit communication. The program is presented in three parts:

**Part 1 Foundations:** In this section of the course, we discuss our spiritual nature and how it plays in the path of mediumship. We also cover the basics and essentials with a new and different twist.

**Part 2, Attunement:** In the second section we learn about the basic tools necessary for spirit communication—the nuts & bolts of it.

**Part 3, Synthesis:** In the final segment of the program we bring together Parts 1 & 2 into practical use. We discuss the ethics and practice of mediumship, and the healing that it can bring.

### The course includes:

- Lessons and exercises posted in blog form
- Live, experiential online workshops each month
- Guest “sitters” each month to practice skills
- Guest medium workshops
- Participation in virtual development circles
- Homework, practice assignments, and written essays for each part of the program

**TUITION:** \$1,650 | Get special savings when you pay in full.

Payment plans available. Some financial aid may be available for qualified students.
